

Cool Control 0.6 l

Optimum cooling for perfect results

Coffee creations with milk and milk foam are hugely popular. For perfect results, they need milk that is chilled to 4 °C. The Cool Control with its dishwasher-safe stainless steel container is really easy to fill and keeps the milk at the ideal temperature for the whole day. In this way, the Cool Control 0.6 l ensures freshness, hygiene and perfect results every time.

Dimensions (W×H×D)	11.7×16.4×23.9 cm
Article number	24161

Ideal use of space

The elegant design of the Cool Control allows it to be used in locations where space is limited. The innovative, slimline milk cooler will fit into any environment, even small kitchenettes, thanks to its compact dimensions.

Elegant design

The Cool Control reflects the classic JURA look. Premium materials, a cover made of high-quality 1.5 mm thick stainless steel and elegant ventilation slots accentuate the Cool Control's design. With its clean, minimalist lines, the Cool Control 0.6l harmonises with any JURA coffee machine.

Perfect milk results

With the Cool Control you can create fresh, fine-textured milk foam for exciting drinks such as the flat white, with perfect results every time. To achieve this, the milk is kept chilled to an optimum 4°C. The level indicator ensures that the user is always reminded when the cooler needs to be topped up with milk.

Hygiene made easy

Close-fitting connectors create airtight connections between the milk container, milk pipe and milk nozzle. Easy to connect and disconnect in just a few steps, optimum hygiene is guaranteed whether you are preparing a speciality coffee with milk or during the automatic milk system cleaning that follows. The stainless steel container, suction lance and adapter are all dishwasher-safe, for perfect cleaning results in next to no time.
