

Z10

A world first: The groundbreaking Z10 with P.R.G. for hot and cold brew speciality coffees

Benefits at a glance

- Product Recognising Grinder (P.R.G.) with ultra-fast automatic grinder adjustment for every speciality coffee
- Cold brew speciality coffees at the touch of a button thanks to the innovative Cold Extraction Process
- Eighth-generation brewing unit with 3D brewing technology for the ultimate aroma experience
- High-quality all-round design with convex-concave front panel, water tank in wave design and beautifully finished details

A masterpiece of Swiss engineering, the new Z10 doubles the range of speciality coffees. At the touch of a button it prepares the full spectrum of hot drinks from intense espresso to on-trend flat white. It also opens up a whole new dimension in the enjoyment of coffee with the introduction of cold brew specialities. This is made possible thanks to the Product Recognising Grinder (P.R.G.), which recognises the chosen speciality and instantly and precisely adjusts the fineness of grind accordingly. In addition, JURA has developed the pioneering Cold Extraction Process – a quite literally refreshing top innovation. In this process, cold water is slowly pulsed through the freshly ground coffee under high pressure. The result is a completely new way of experiencing coffee – refreshing, energising and with a wonderfully balanced aroma.

This outstanding premium coffee machine features a double-speed 4.3" touch display and the Blue Crystal Rotary Switch. Thanks to the Speciality Selection menu and artificial intelligence, it's exceptionally easy and intuitive to use. The technology quantum leap is also reflected in the sculptural design. The convex-concave front panel is visible proof of attention to detail and absolute manufacturing precision. Its high quality makes the Z10 a statement of excellent taste.
