

## ONO

Perfect coffee. Not capsuled.

### Benefits at a glance

- Choose which type of coffee to use – complete freedom of choice
- Enjoy being your own barista as you operate the crank and lever
- Consistently outstanding quality for coffee and espresso, with an intensity that can be set individually for each cup
- A more sustainable way to make coffee with no unnecessary packaging waste

The perfect one-cup machine for all those who love coffee, appreciate good quality and care about their environmental impact. The ONO is more than just a coffee machine: it creates truly unique moments of pleasure. An innovative coffee machine, and currently the only one of its kind, the ONO is a genuine statement piece that creates truly unique moments of pleasure. Discover the ONO and become your own barista in no time. Using freshly ground beans means that you have complete freedom to choose which type of coffee you use for every cup. This gives you the freedom to discover new flavours, create your own blends, and support brands that matter to you – for example particular Fairtrade plantations or local roasteries. Because the ONO doesn't use capsules or pads, it also avoids unnecessary packaging waste. The coffee grounds are a 100% natural product that can be composted or used as a fertiliser.

ONO

## Technical overview

### Specific advantages

Number of specialities	2
Intelligent preheating	■

### JURA coffee machine standards

Variable brewing unit	7 – 14 g
High-performance pump, 15 bar	1
