

E6 Dark Inox (ED)

Enjoy cappuccino in two worlds of indulgence

Functional and versatile: The E6 opens up two worlds of indulgence: Hot Brew for classic coffee moments and Light Brew for mild, aromatic ready-to-drink enjoyment.

Equipped with the Professional Aroma Grinder G2, it allows the coffee aromas to unfold to perfection, bringing fine nuances into the cup. While the Easy Cappuccino function prepares well-balanced specialties with milk, the monitored powder chute allows additional options such as decaffeinated coffee to be served. Thanks to the clearly structured operating concept, the 3.5-inch colour display and compatibility with J.O.E.[®], the E6 guarantees intuitive operation. The Coffee Timer * provides a first-class start to the day, preparing black speciality coffees at exactly the desired time: freshly ground, not capsuled. The Quality Assistant ensures effortless maintenance and long-lasting enjoyment, with useful care instructions on filter changes, fresh water and more.

The E6 is characterised by timeless elegance. It features an impressively clear design language, high-quality materials and precise lines. Form and function merge in a design that radiates modern clarity and the very highest quality. A combination that sets the tone in any setting.

**In combination with optional Wi-Fi Connect V2 and the free J.O.E.[®] app.*

Benefits at a glance

- Two worlds of indulgence: Hot Brew and Light Brew, ground with the P.A.G.2 grinder.
- Fine milk foam and hot water in no time at all.
- 3.5-inch colour display compatible with J.O.E.[®], Coffee Timer and Quality Assistant.
- Clean, elegant design with high-quality materials and chrome-plated details.

E6

Technical overview

Specific advantages

Number of specialities	17
Light Extraction Process	■
Coffee Timer	■
Wi-Fi connection to home network	■

JURA coffee machine standards

Grinder	P.A.G.2
Powder chute for ground coffee	■
Powder chute monitoring	■
