

E10 Onyx Grey (INTA)

The coffee experience with four worlds of indulgence and new technology

The E10 offers four different worlds of indulgence, enhancing the E line with cold-extracted speciality coffees. It has almost everything coffee lovers could desire, from classic hot-brewed coffee to Cold Brew and Light Brew, the ultimate ready-to-drink indulgence. And finally, the E10 offers a sweet finishing touch with the Sweet Foam function.

This model has no fewer than five brewing processes, which it uses to prepare 36 speciality coffee to perfection. The operating concept of the E line's virtuoso model offers maximum convenience. The 3.5-inch display with side buttons invites you to discover the different worlds with an intuitive colour concept.

The E10 also incorporates smart technology such as the Coffee Timer. This feature allows you to programme your morning coffee using the J.O.E.® app and enjoy it freshly ground and automatically prepared as soon as you get up.

The new generation of JURA automatic coffee machines with the Quality Assistant is designed for daily routines and that little bit of extra sustainability. It ensures even better coffee quality and helps to extend the life of the machine.

In its choice of colour, the E10 radiates elegance and presents a very special character. Just 27 cm wide, it makes an impressive impact even in smaller kitchens, both in terms of design and coffee experience.

Benefits at a glance

- Classic Hot Brew, Cold Brew, Light Brew and Sweet Foam: the E10 offers four different worlds of indulgence
- Greater ease of use thanks to Coffee Timer and Quality Assistant
- Iconic design with attention to detail
- The P.A.G.2⁺ grinder guarantees precise grinding results, consistent performance and a long service life, and also offers aroma control

E10
